

Humane Society of the United States (HSUS) and Texas Humane Legislation Network (THLN) are no friend to

“Man’s Best Friend”!

Their current legislation (HB 1451) brought into the Texas House of Representatives is the most invasive piece of “Animal Rights” legislation in TEXAS history.

Calling all breeders with more than ten intact female dogs “Large Volume Commercial Breeders” or the hate term of “PUPPY-MILL” is **unacceptable.**

Texas has successful, long standing legislation in place with no tolerance for animal cruelty, under the Animal Welfare Act.

Join us in supporting the rights of all animal ownership, in the many venues Texans enjoy their dogs, by opposing HB 1451. Please contact your legislator and express your concerns with this bill which include warrantless searches of private residences, expensive fees, and more government.

With special THANKS to Representative, David Simpson from Longview Texas, a true champion for the rights of all TEXANS and supporter of less government.

Message brought by the caring RESPONSIBLE,
dog breeders, fanciers, and sportsmen of:
